DIDSBURY PIONEER

Vol. XXII

THURSDAY, JULY 15th

No. 25

TOWN OF DIDSBURY NOTICE

Numerous complaints have been made regarding the dangerous practice of riding bicycles on sidewalks, and hereafter any boy or girl caught doing this will be prosecuted without further warning. Parents are requested to co-operate with the council in putting a stop to this contravention of the By-law.

W. A. Austin,
Secy.-Treas.

TOWN OF DIDSBURY NOTICE

The Town of Didsbury offers for sale by tender those desirable residential lots, 26 in number, situate in blocks 6, 7 and 8, plan 7976 C. N., on the East side of the Railway track.

Tenders will be considered either for the property as a whole or for separate lots or blocks.

Sealed offers should be in the hands of the Secretary by Saturday, July 25th. For further particulars apply to the undersigned.

W. A. Austin, Secy.-Treas.

TENDERS WANTED

Sealed tenders addressed to Sec.-Treas. will be received up to July 20th, 1925, for calssomining the Gore school and building a brick flue approximately 14 ft. high, also some plaster repair work on ceiling.

E. K. Cullen, Sec.-Treas.

C. J. Foat, of Cremons, east of town, was in on Monday visiting some of his old friends. He reports crops in his district as doing well, and thinks the yield will be a good average one.

Bergen News.

The Sundre Stampede was a great success and many thanks are due to the Chief of Police and his Deputy for the perfect manner in which they handled the unruly spirits.

The Mayor has been visiting the creek regularly for his daily "bawth". He will not put his cattle through the pool as it is much too deep.

Beautiful weather was experienced for the Bergen School picnic, a record crowd being present. The married men won the race and one young lady was heard to remark that the bachelors were too slow.

Two deer were seen today on their way to the Highlands.

"My heart's in the Highlands,
My heart is not here."

The monthly meeting of the U.F.A. was held last Saturday at Sprucedale Farm, the residence of Mr. Peter Neilson.

Mr. and Mrs. McRae, Mrs. Allan and Mrs. Davidson are visitors to Calgary Stampede this week.

Latest styles for ladies: If molested by mosquitoes, try using the Didsbury "Pioneer" inside the stockings.

Mr. Dolan and Mr. Brown were over in the Valley last week and signed up numerous contracts for the pools. The air in the Valley is so salubrious that they are going to make a drive of another character next Sunday.

Messrs. Priest and Walls have returned to our midst after their visit to "The Charmed Land" and are now farming at the Pindal place.

Mr. Chas. Erickson's new mansion is rapidly taking shape and the nest for inside is also being feathered and will soon be ready for the bird.

These are all the items as the associate editors and myself think that quite enough of your valuable space will be taken up if you insert all this at one spasm.

Mountain View.

Quite a number of people from this neighborhood attended the Jubilee Exhibition and Stampede in Calgary last week.

Mr. and Mrs. Earl Jackson are moving to a farm west of Calgary. Their many friends here are sorry to see them leave, but wish them every success in their new home.

Mrs. Ansenhaus and daughter Marie and two sons, Odmund and Wilfred, motored to Banff this week.

Mr. and Mrs. Sammons of Gleichen, spent the week-end visiting their friends, Mr. and Mrs. Ed. Blain.

MY GARDEN.

(By Edgar A. Guest)

Judge me not by what I've said,
Hot in rage or cold in dread;
Judge me not by what I've done
Seeking goals which must me won;
Prey to moods and temper quick,
Shame lies round about me thick,
But my garden lets you see
Something of the better me.

Walk my garden and behold,
I have loved the marigold!
In those hours which were my own,
Roses I have loved and grown;
I have labored here to bring
Hyacinths to bloom in spring,
Here I've kept for all who come
Many a red-geranium.

Walk my garden round and see
My devotion to a tree,
See me struggle to express
All my dreams of loveliness
In a pansy patch, and make
Dahlia beds for beauty's sake.
Men may think me cold, but oh,
Not a rose would call me so!

Judge me not by what you hear
From the lips of men saviors;
If you'd know me as I am,
Stripped of all the worldly sham,
Let my little garden be
Called to testify for me,
There is evidence supplied
Of my nobler, gentler side.

Crop Report.

WINNIPEG, Man., July 13.—Crop conditions throughout the Prairie provinces continue to be favorable, according to the Weekly Crop Report issued today by the Agricultural Department of the Canadian Pacific Railway. Southern Alberta has greatly benefited by rains during the past week. Continuous wet weather throughout June retarded work of summer-fallowing to a considerable extent. Livestock has never been better than it is this year. Cattle receipts on local markets are considerably heavier than previous weeks with prices remaining steady.

In the Province of Manitoba crops continue to do well, there has been ample moisture during the past week and the weather has been ideal for growth. Early wheat on summer-fallow land is from 24 to 39 inches high and about 50 per cent. heading out. Pastures are good throughout the Province and stock is in fine shape. Haying is just commencing and there will be heavy crops. Crop prospects over Saskatchewan continue promising. Wheat is a satisfactory stand with clean stiff straw and without indication of rust. The only district reporting any sign of rust is Vantage (Vanguard Subdivision) where slight traces of red rust are said to be in evidence. Wheat is heading out and is about ten days ahead of average year. In the Province of Alberta crops in general are doing well and conditions give every reason for optimism. It is not meant to imply that Southern Alberta has not a fair crop in sight yet, but prospects of a bumper crop which seemed inevitable have somehow changed. Crops in poorly prepared lands are suffering acutely, and even grain on well prepared summerfallow has started to wilt. There is plenty of grass in practically every part of the province and farmers and ranchers are inclined to hold their stock until fall or until such time as they become in good condition. Dry warm weather with high winds have prevailed during the past week in the Edmonton, Dunvegan and B. C. Railway Districts. Conditions on the whole are good but rain is needed in most points. All districts in British Columbia report dry warm weather and conditions favorable for growing crops. Raspberries are beginning to move freely and while the crop will be light in some districts, it is expected that the average will be fair. Stone fruits with the exception of sour cherries will be light, early vegetables are making good progress, the report states.

Saddle Stolen.

A stock saddle and Navajo saddle blanket belonging to W. J. Helmer, of Sundre, was stolen on Sunday afternoon on the Edmonton trail about five miles northeast of Calgary. Mr. Helmer was forced to unsaddle and turn his horse loose as it became sick, and went to get another horse. When he returned both saddle and blanket were gone. The saddle, which is a square skirted, single cinch, stock saddle, has the name of the maker, G. L. G., Portland, Oregon, stamped on the back of the cantle.

The Rev. Fred Cooke, of the Navy League of Alberta, and who is now in Didsbury, is collecting subscriptions to The Sailor Magazine, published monthly, at \$2.00 a year, and receiving donations to the work of the Navy League.

The Navy League of Canada is caring for the widows and orphans of the mercantile marine of Canada. As these men of the merchant marine who were killed and injured in the Great War do not come under the pension scheme of the Dominion Government, any assistance that can be given the Navy League by the people of Didsbury will be appreciated.

Contributions to The Sailor Magazine and to the work of the Navy League may be sent to John A. Irvine, secretary-treasurer, or to Rev. Fred Cooke, representative, 817 1st St. East, Calgary.

Canadian Trade Prospects

With the close of the first six months of 1925, financial and commercial publications in Canada have been taking stock of the business situation throughout the Dominion. The conclusions reached by them as the result of careful surveys is that present conditions are better and prospects for the immediate future more promising than for some years past. This is especially true in regard to agriculture, and, as the West has always contended, a betterment in the farming outlook has a direct beneficial effect on manufacturing and all business.

Although actual returns from the farms are problematical until the crops are harvested, and it is never safe to closely estimate yields of grain and field crops until they are finally removed from all vagaries of weather, plant diseases and pests, the fact remains that at the end of June prospects throughout Canada, and especially in the Western Provinces, were better than for many years, and, in the absence of widespread and extremely adverse conditions before harvest, the outlook is for one of the best and most profitable crops in ten years.

One financial paper in its annual review at the end of June states, on the basis of reports from all the Provinces, that the biggest increase in employment in two years has taken place, with the result that, except in the larger cities where the unemployed always congregate, there are few idle men. Manufacturing industries are busier than for years and in Ontario and Quebec real activity prevails with manufacturing near to capacity in several lines and some plants working overtime.

Record catches of fish on both the Atlantic and Pacific seaboard have taken place, immigration is increasing, the summer tourist traffic shows every indication of attaining a new high record, while the export trade of the Dominion continues to increase both in volume and value month by month. Building construction is likewise much greater than a year ago. Railway car loadings are smaller, but this is accounted for in two items, the smaller volume of last year's grain crop and reduction in the movement of coal resulting from labor troubles at the mines. On the other hand, there is a substantial increase in car loadings of manufactured articles and general merchandise, while this year's grain crop promises to more than offset the reduced volume of a year ago.

One of the significant developments is the steadily rising volume and value of Canada's export trade. For some years now the Dominion Government has been quietly negotiating trade treaties with other countries. One of the latest was with Australia and already British Columbia is looking forward to and preparing for a big expansion in trade with that sister Dominion. Before this article appears in print it is expected that the terms of a new trade arrangement with the British West Indies will be announced. Inasmuch as each and every one of these reciprocal agreements provides for the removal of artificial restrictions on trade through the lowering of customs duties and the wiping out of other obstacles to the free exchange of commodities, and are frequently accompanied by the provision of larger and improved facilities of communication and transport, the effect cannot be otherwise than to greatly enlarge Canada's markets abroad, and, as repeatedly urged in this column, that is exactly what a young and producing country like Canada requires. Freer trade and wider markets are bound to bring about the Dominion's development leading to increased employment and production and resultant prosperity and growth in wealth.

A young country like Canada, with a comparatively small population, but huge resources and productive powers, and producing far more than its own people can consume, and already possessing manufacturing and other industries with capacities for production far in excess of the needs of home population, stands in need, not so much of protection of that restricted home market, but the removal of obstacles to trade with the world. We cannot grow strong and wealthy by merely trading with ourselves; that is too much a case of trying to lift oneself by the boot straps. Strength and wealth will come through producing for sale abroad, thus bringing into Canada the wealth derived through the sale of our products abroad.

6,000 Miles of Roads

"The province of Quebec now has 6,000 miles of modern improved roads, including a complete system of main trunk highways and county or market roads, and a large number of local roads," says the Quebec official bulletin of the roads department. "These 6,000 miles of roads represent thirteen years of strenuous and sustained work. They cost, in construction, repair and maintenance, over \$60,000,000."

The Canadian Arctic

The merest glance at the map, or better at a globe, shows that if commercial aviation fulfils the hopes of its promoters the great intercolonial air lanes will lie in the far north. Siberia and Alaska will both have great importance, and so will any island found further north, even if it is only big enough to provide a filling station and enough level ground for an aviator to alight and take off.—Springfield Republican.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *W. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

How Germany Solves Housing Problem

Families Allotted Space According To Number Of Members

They have a speedy method of solving the housing problem in Germany, according to an English paper, which says:

"You have here a flat of eight rooms; you are three in family. You will live, in future, in three rooms. Another family will move in next week to occupy the other five rooms. Good morning."

What would a British (or Canadian) householder say if an official said such a thing to him, and if he knew that he could neither protest nor refuse?

Yet that is what happens in Berlin every day. Next time we are inclined to grumble at hard conditions in our own country, it may help us to be more contented if we realize what the Germans put up with.

Rents are adjusted according to the number of rooms occupied in a house or flat. Thus, the family using five rooms in an eight-roomed house—with the original tenant inhabiting the other three rooms—will pay five-eighths of the rental.

NATURE'S WARNINGS

Danger Signals That Everyone Should Take Seriously

Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pains in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints; headaches are a sign that the nerves or stomach are out of order. In some ailments, such as anaemia, pain is not so prominent. In this case Nature's warning takes the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Berndt, of Arnprior, Ont., has proved the great value of this medicine and says:—"I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

World's Smallest Yacht

At the "Temple of the Brave" a memorial at Hedge End, England, to the memory of yachtsmen killed in the Great War, is to be found the smallest model yacht in the world. It weighs three grains, and is not as long as a man's thumb.

The cheapness of Mother Graves' Worm Expeller puts it within reach of all, and it can be got at any druggists.

Soviet Denies Intrigues

Would Avoid Any Action Which Could Be Regarded As Intervention In China

Foreign Minister Tchitcherine has issued a statement declaring that while the sympathies of the Russians are on the side of the Chinese in their struggle for complete liberation from foreign domination, the Soviet Government's policy is to avoid any action which could be regarded as intervention in China's internal affairs.

This statement was prompted by attacks upon Soviet Russia in the English newspapers in connection with the present situation in China. The foreign minister denies that Soviet Russia is carrying on intrigues in China against British trade or against foreigners in general.

You never can tell. Some people aim so high they never hit anything on earth.

New Livestock Organization

Animal Husbandry Men of Western Canada Form Association

Animal husbandry men of western Canada have formed themselves into an organization affiliated with the Canadian Society of Technical Agriculturists. The society has been formed for the purpose of co-ordinating and checking up the experimental work that is being carried on. It is probable that a similar society will be formed in the east, and their work will be unified through the C.S.T.A. In the meantime a provisional executive will take charge of the organization, and the first annual meeting will be held in Winnipeg next Christmas at the same time as the western agronomists convene.

The organization will include the Dominion experimental farm superintendents on the prairies, the animal husbandry men of the three universities, the three livestock commissioners and one or two others who are doing a certain amount of investigation work, including C. M. Leamouth, superintendent of institutional farms for Saskatchewan, and G. H. Hutton, of the C.P.R. agricultural department.

The provisional committee of the new organization includes: N. J. Timlin, representing Manitoba; W. H. Gibson, representing Saskatchewan; F. H. Reed, Lacombe, secretary; P. Sackville, University of Alberta, is chairman.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Brought Millions To Canada

Since the British cattle embargo was lifted on April 1, 1923, 158,859 head of cattle had been shipped to Great Britain up to May 31 last, and the estimated value to Canada of these exports is \$14,135,715. This was stated in the commons in answer to a question.

Scientists, who are tracing future paths of earthquakes, state that America is safe, owing to the great depth of the mountainous land formations.

The Professional Farmer

Farmer Must be a Specialist Highly Educated in His Business

That slack farming methods do not pay is generally accepted; but that slack farming methods are a waste of national assets and an injury to the landless population must be a creed of the future. Already there are abundant signs that the farmer must be a scientist highly educated in his business and understanding to the last point the natural forces which he calls into play. As such he will take his place as a professional man—the most highly respected professional man of all.—Sydney Bulletin.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Another Title For Prince

The latest title granted to the Prince is that of "Alluvial Diamond Digger." An official certificate entitling him to this honor was presented by the "Digger's Committee" of West Barkley. He was somewhat amused when he was informed by the committee that the certificate is accorded "only to persons of indubitable honesty."

Minard's Liniment for Neuralgia

Amazing, But True

It's a most amazing thing, but if you tell a man that there are 326,241,518,214,327,216 stars in the sky, he will accept it as a fact. But if you put up a notice saying: "Wet Paint," he has to go and dab it to see if it's true.

Keep Your Shoes Neat

2IN1
WHITE
Shoe Dressing
CAKE OR LIQUID

Heft it Once!
Then You Will Want One for Your Own Kitchen

The very feel of it will make you want to own it. It balances so nicely, seems to be just right. The handle is rigid and does not tip around like a hinged handle. That means no slipping, scalded hands or accidents. See how you fill it? You lift the hinged lid and can fill it right under the tap or by dipper because the opening is at the side, not the centre. Most important, these new up-to-date kettles cost no more than the old fashioned kettle.

SMP
ENAMELED
TEA KETTLE

TRADE PACT IS NOW CONCLUDED WITH WEST INDIES

Ottawa.—Improved steamship services and mutual tariff preferences are the features of the Canada-British West Indies-Bermuda-British Guiana-British Honduras trade agreement, the full text of which was made public. The agreement, which is subject to the ratification of the Parliament of Canada, the colonial office and the governments of the other contracting parties, is for a period of 12 years, and will come into effect upon proclamation.

Canada, under the agreement, extends tariff preferences on bananas, cocoa beans, lime juice, limes, arrow root, coconuts, grape-fruit, rum, onions, cocoa butter, green coffee, ginger and spices, nutmeg, pineapple, sugar, marine sponges, angostura bitters. All goods other than tobacco, cigars, cigarettes and spirituous or alcoholic liquors, being produced or manufactured in any of the colonies mentioned, when imported to Canada, shall not, at any time, be subject to a tariff more than 50 per cent. of the duties imposed on similar goods under the general tariff of Canada.

Jamaica, The Bahamas, British Honduras, Barbados, Trinidad and British Guiana give Canada preferences on flour, butter, cheese, lard, condensed milk, meats of all kinds, fish, apples and potatoes, boots, cement, prepared cocoa, confectionery, cordage.

Trying To Sell Government House

Alberta So Far Has Not Received Any Offers

Edmonton.—What is to be done about selling or keeping Government House is to be the subject of a report to the next session of the legislature when it re-assembles on a date yet to be definitely fixed.

The government is now looking into the matter and Premier Greenfield, who was in the east when the invitation was issued to real estate dealers to make or get offers for the property, says this action is intended to carry out the wishes of the legislature by ascertaining what the chances are for a sale.

So far no offers have been received.

Britain Reducing Dole

Hopes New Government Bill Will Be Aid to Emigration

London.—There is going to be a cut of six and a half million pounds in the unemployment dole under the new government bill and labor is furiously attacking the government. The minister of labor under this measure will regain his power of discretion to allow or disallow benefit already extended, by which it is hoped to check the scandalous abuses and the glaring cases of married women drawing the dole and yet being unwilling to work.

The effect of the bill will be to reduce the number of men and women on the dole and to encourage emigration, which is today being seriously handicapped under the dole system.

New Game Law In Alaska

Non-Residents Must Be Accompanied By Licensed Guides

Seattle.—Beginning August 15, non-residents hunting game animals in Alaska must be accompanied by registered and licensed guides, the Alaska game commission has announced. Persons not licensed have been prohibited from guiding non-resident hunters.

Formerly, licensed guides were required only for the Kenai Peninsula, between Cook Inlet and Prince William Sound, south of Anchorage, but the new ruling covers all Alaska.

Qualities Needed By Nurses

Montreal.—Tact, sympathetic understanding, patience, gentleness, cheerfulness and discretion were the qualities of nurses, said Dr. E. M. Eberts, who delivered an address to graduating nurses of the city, but with all these virtues was needed a sense of humor. Without a sense of humor he did not think that either nurses or doctors could follow the path of duty year in and year out.

More Single Men Are Convicted Of Crime

Toronto.—Judge Dysart is authority for the statement that nine men are convicted of crime to every woman, and single men are three times as prominent on the list as married. At the annual convention of the chief constables of Canada, Judge Dysart pointed out that when the attention of the home was not given to the children, they experienced harmful freedom in their actions. They found access to the movies easy and from lurid films gathered ideas which poisoned their minds.

Tornado Hits Minneapolis

Three Persons Killed and Much Damage to Property

Minneapolis.—Three persons were killed and at least 25 injured here when a wind and rain storm, striking with the force of a tornado, swooped down on Minneapolis, tore the roof off a section of a pavilion at Lake Harriet and buried nearly a score under the debris.

As the wind rushed through the city, the floor in a south Minneapolis restaurant gave way beneath a half-dozen dinner guests, throwing them into the basement. None was seriously hurt, however. Store fronts were caved in by the wind, several houses damaged, trees uprooted, and traffic was tied up by flooded streets, as the sewers were unable to carry off the heavy rain. Basements of many houses were flooded.

The Alberta Crop

90,000,000 Bushels Wheat Crop Is Seen In 1925

Edmonton.—In the neighborhood of 90 million bushels is the Provincial Government's wheat crop estimate now, in view of present weather conditions. It indicates a drop from previous estimates made in various quarters, the explanation being that dry weather, weeds, pests and reduction in acreage through farmers moving, have all combined to cut down the probable crop.

Hon. George Hoadley, minister of agriculture, now estimates the area seeded to wheat at 5,500,000 acres, and he puts the likely average yield at 17 bushels to the acre. This works out at 93,500,000 bushels, assuming that the present favorable conditions continue.

Italy Would Punish Speculators

Brand as Traitors Those Who Cause Financial Crisis

Rome.—Punishment of speculators as traitors to Italy was suggested by Deputy Schroni of the Italy chamber, who asked Finance Minister Stefani what measures the government intended to take against those who caused the recent financial crisis in the country. He said those who bought foreign money needlessly, and thereby brought about depreciation of the lire, should be treated as traitors.

Suspend Death Sentence

Moscow.—A Moscow dispatch to the Havas Agency says the Soviet Government has granted the request of the German Government for a suspension of the death sentence on two German students charged with plotting to kill Leon Trotsky and other Soviet leaders.

Hindenburg's Son Personal Adjutant

Berlin.—Major Oscar Hindenburg, who, until his father's election as president of the German Republic, was stationed with the Hanover Cavalry School, has been transferred to the defence ministry. He has been posted as the president's personal adjutant.

Sign Arms Convention

Geneva.—A representative of the German Government has signed the convention to limit traffic in arms, formulated by the recent arms conference here. Germany had previously signed the protocol against the use of poison gas in warfare.

The United States is the second gold-producing country in the world, the Transvaal being first and Canada third.

Mentioned For Railway Board

MR. JUSTICE W. F. A. TURGEON

In view of the impending equalization of freight rates by the railway commission, considerable influence is being exerted to have the vacancy in that board filled by a western man, and Mr. Justice W. F. A. Turgeon, of Regina, Saskatchewan, is being boomed for the position, the Ottawa Citizen says.

Commander Maude Reaches Santa Barbara

Sailing to England From Victoria in Light Craft

Santa Barbara.—Commander Eustace B. Maude, British navy, retired, who set out from Victoria, B.C., two months ago, to sail alone to England in a 25-foot yawl, put into Santa Barbara harbor for provisions. He had not expected to land until he reached Panama, but was driven close to the coast recently by storms and decided to drop anchor here.

Victoria.—Commander Eustace B. Maude left here May 5 for England, in his 25-foot yawl. He is 74 years old.

The War In China

Canton.—Continued anti-foreign agitation started an exodus of Canton business houses to the British settlement of Hong Kong, 95 miles distant. Predictions were made that hostilities would last six months.

"Jack Miner and Tyrus R. Cobb Spend Vacations Together."

Jack Miner with some of his birds. Tyrus R. Cobb and Jack Miner in camp.

It is doubtful if, in Canada, there is a busier or better known man than Mr. Jack Miner, the Canadian naturalist, author and lecturer. In the United States the same is true of Mr. Tyrus R. Cobb, the world's greatest baseball player. Jack Miner is in his sixtieth year, while Ty. Cobb is in his fortieth.

For thirty-nine consecutive years, Jack Miner has taken a month's holiday each fall to get away from his public and busy life and has never seen the first of November at home. Always during that month, he has travelled each time by the Canadian Pacific Railway to Northern Ontario and has camped by the track all the way between Mattawa, Quebec and Port Arthur, Ontario. Thus he has walked over this territory by day, and partly by night. I say by night because during these thirty-nine years, he has found thirteen lost men, all of whom had been lost over a day and a night.

For twenty-nine years Jack Miner carried a gun, and no individual had a more complete collection of moose and deer heads than did he. So great were they that when the Canadian Pacific Railway were planning their exhibit for the World's Exposi-

Provide Safeguards Against Bank Failures

Ottawa.—"The occurrences on which charges were launched under the Bank Act of 1913, against the former directors of the Home Bank of Canada, and upon which they were recently found not guilty by decision of the Ontario Court of Appeal, could not, in our opinion, take place under the safeguards provided in the new act of 1923, without early detection." It was stated at the department of finance in commenting on an interview given by Attorney-General Nickle of Ontario, in which he declared no further criminal prosecution would be conducted against the directors.

To Develop Empire Trade

Is Object of Self-Supporting League Says Viscount Jellicoe

London.—"The Self-Supporting Empire League" which has been on the stocks for six to eight months, had an enthusiastic launching at an inaugural luncheon, presided over by Viscount Jellicoe.

The objects of the league, Viscount Jellicoe explained, were to foster and develop the trade and industry of the empire, and to induce consumers to demand empire products, also to assist producers to meet the demands at reasonable prices at branches to be formed to encourage industries in their own immediate territories.

Among representative men from overseas, who gave the new movement their blessing, was Sir George Perley, former Canadian high commissioner in London, who said all loyal Canadians were ashamed that Canada had bought only ten shillings worth of commodities in Britain for over £1 spent by Britain in the Dominion.

"Let the league give the lead," he said, "and Canada will enthusiastically follow."

Largest Motorship Launched

Belfast.—A 22,000-ton motorship, the largest and most powerful of its type in the world, was launched at Queen Island, Belfast, and christened Asturias by the Duchess of Abercorn. The ship will trade with Argentina and Brazil.

It will accommodate 1,700 passengers.

DISSOLUTION OF PARLIAMENT MAY TAKE PLACE SOON

Ottawa.—Decision whether a general election is to be held this fall will not be reached till cabinet resumes business after the holidays. But the more speculatively inclined are offering six to four in favor of dissolution. During the two or three weeks of respite, there will be a sounding out of constituencies and a general survey of the country. The heavy Liberal defeat in Nova Scotia for a time checked the talk of dissolution and should New Brunswick follow suit, it is quite conceivable that there would be further delay in appealing to the polls. None the less, all parties have been organizing for some time past. Prospects of a bountiful harvest, coupled with good prices, are further taken as favorable to dissolution.

Some ministerial changes are due and should the government decide for a general election, there will be a cabinet re-organization with an appeal to the country on a new slate.

A whole series of appointments remain to be filled. There are vacancies in the senate; there is a vacancy on the railway commission; the post of Canadian minister at Washington, for which an appropriation is made by parliament year by year has never been filled. The retirement of Hon. P. H. Roy as Canadian commissioner in Paris has likewise been mentioned from time to time, rumor associating Hon. Dr. Beland, minister of soldiers' civil re-establishment with the appointment, should Mr. Roy decide to retire.

When it comes, the general election will be fought on the new distribution of seats. This will increase the membership of the House of Commons from 235 to 245. Nova Scotia will have two members less; British Columbia gets one member more; Manitoba two more; Saskatchewan five more; Alberta four more.

Wants India As Partner

Britain Anxious to Have Co-operation Of Indian People

London.—Great Britain no longer talks of holding the gorgeous east in fee, but asks India to march side by side with us in fruitful, harmonious partnership, which might create the greatest and proudest days of Indian history," declared the Earl of Birkenhead, secretary of state for India, in an important debate in the House of Lords.

Arguing that the 1919 act had not failed, but never had had a chance, because of the refusal of the Indians to co-operate with the British, Lord Birkenhead continued that the door of acceleration was open, but only when "we see everywhere among responsible leaders of Indian thought the evidence of sincere and genuine desire to co-operate with us in making the best of the existing constitution."

He appealed to the Indian people with deepest sincerity for goodwill and co-operation.

"We shall not be niggardly bargainers if we meet the generous friendship which is near and dear to our hearts," said the secretary of India.

Better Livestock Train Disbanded

Stock Was Sold to Farmers During Southern Trip

Regina.—The better livestock train, which has been travelling through the southern part of the province since June 10, has completed its itinerary and disbanded.

The train was organized by the department of agriculture in the Saskatchewan Government, with the co-operation of the Canadian Pacific Railway. The train was fully equipped for the exhibition of stock, the illustration of agricultural methods by means of moving pictures and lantern slides, and the giving of lectures on agricultural topics. In addition, a large percentage of the stock was sold to farmers in various districts during the course of the trip.

Co-operate In Morocco

Madrid.—France and Spain have signed an agreement for co-operation in Morocco against Abd-el-Krim's Rifian tribesmen, who refused to accept their authority.

Here and There

During 1924 the 1,300 bee-keepers of Manitoba marketed 1,302,000 pounds of honey, valued at \$195,000, according to official returns by the Provincial Apiarist.

Prof. J. A. Allen, Provincial Geologist of Alberta, declares in an official statement that sixty-two billion tons of coal, half of which is recoverable, lie beneath the surface of Alberta soil.

Seymour Backus, Vice-President of the Backus-Brooks Company, of Winnipeg, states that the largest producing pulp mill in the world will be in operation at Kenora, Ont., before the end of 1925.

It is estimated that Vancouver will ship approximately 25,000,000 bushels of grain of the 1924 crop. Shipments already total 21,188,000 bushels. Commitments for almost 1,000,000 additional bushels have been made.

The special train operated by the Canadian Pacific Railway and known as The Trans-Canada Limited, which makes the journey across the entire country in eighty-eight hours, recently commenced its season, the seventh since its inception.

According to a bulletin issued by the Bureau of Statistics Alberta's foreign population is in excess of 180,000 with approximately 100,000 Americans included in the total. About 5,000 Americans reside in Calgary.

When Their Majesties King George and Queen Mary paid their official visit to the British Empire Exhibition at Wembley shortly after the reopening, they boarded the miniature Canadian Pacific train and made a trip around "Treasure Island" and expressed great interest in all they saw.

An effort will be made this year to transplant Swiss mountain roses in the Canadian Rockies. These roses, which were brought from Switzerland by Dr. Huebscher, late Swiss Consul at Montreal, are extremely hardy and only thrive above elevations of 3,000 feet. They will be planted in the gardens at Lake Louise and Banff.

The first trip of the Canadian Pacific S.S. Princess Kathleen from Vancouver to Seattle via Victoria was recently made under most successful conditions. The people of Seattle are so enthusiastic over the increased coastwise service that they have tendered an address of thanks to Captain Troup, manager of the Canadian Pacific Coastal service.

There is every possibility that the Provincial Government of British Columbia may this year complete the construction of the scenic highway connecting Golden on the main line of the Canadian Pacific Railway with the summer resorts of Banff and Lake Louise. When this link, much of which was built during the past two seasons, is completed it will make one magnificent triangle through the heart of the Canadian Rockies.

The 286 passengers on the Canadian Pacific S.S. Empress of France completed their 30,000-mile tour of the world on Saturday, May 23, when the vessel docked at New York. At their last stop at Havana, President Machado of Cuba invited the passengers to attend his official inauguration and to witness the unveiling of a statue to the preceding President.

ALBERTA FAIR DATES

The following is a list of the Fairs to be held in this district this year, with the name of the secretary of each:

Alix—Aug. 20, 21; W. L. Pettet.
Benalto—July 21-22; A. Norton.
Big Valley—July 28-29; Fred Biggs.
Bowden—Aug. 20; Mrs. W. A. Hills.
Didsbury—Aug. 4-5; A. A. Revell.
Hays (Louisiana)—Aug. 19-20; J. Smith.
Innisfail—Aug. 18-19; Stewart Moore.
Lacombe—Aug. 4, 5, 6; J. McKenty.
Milnerston—Sept. 16; E. W. Meers.
Oids—July 28-29; R. B. Campbell.
Ponoka—Aug. 5-6; L. I. Stuart.
Red Deer—Aug. 13-14-15—Ralph Patterson.
Rimbey—Aug. 14; L. S. Cutler.
Rocky Mountain House—Sept. 2-3; E. Beveridge.
Stettler—July 30-31, Aug 1; G. W. F. Day.
Three Hills—Aug. 13; C. P. McDonough.
Trochu—Aug. 6-7; C. J. Christie.
Wetaskiwin—Aug. 7-8; C. D. Smith.
Camrose—Aug. 10-12; D. M. Omond.
Edmonton—July 13-18; W. J. Stark.

The following story is told of Sir William Van Horne, first president of the Canadian Pacific Railway and a Major Rogers, who was in charge of the supplies for men working along the track. Van Horne said: "Look here, Major, I hear your men won't stay with you, they say you starve them." "T'aint so, Van." "Well, I'm told you feed 'em on soup made out of water flavored with old ham canvas covers." "T'aint so, Van, I didn't never have no hams."—From "Canada's Great Highway," by J. H. E. Secretan.

The Western railways of the United States comprising 67 roads serving Chicago and the West, have petitioned the Inter-State Commerce Commission for permission to advance rates. They state that for the years 1921 to 1924 inclusive, the average rate of return on capital was 3.55 per cent., which they claim is so small as to render it impossible for them to secure working capital for extensions and improvement of service by the sale of stock or issue of bonds at reasonable terms. They ask for rates that would give them a net return of 5% per cent., which it is generally admitted is what railways should have.

U.S. Points: \$2.50 per year

Reports coming in from the surrounding country all speak well of the crops, the warm weather of the past week having done much in helping the grain along. Wheat is now fully headed and getting into the milk stage. Garden stuff, too, is doing remarkably well this year. New potatoes of local growth are on sale in town, and other garden produce is showing an inclination to make greater progress than for years past. Altogether, the Didsbury district is keeping up its reputation of being one of the best farming districts in Alberta.

Birth—On Thursday, July 9th, Mrs. A. E. Ryan of a son.

Mrs. Alex. Hendry and children left last Saturday for Vancouver.

Mr. and Mrs. D. Shantz, of Castor, are attending the camp here this week.

Mr. and Mrs. A. C. Neufeldt left on Saturday to spend a holiday in British Columbia.

Miss Olive Hyde and Miss Pratt left on Monday for Vancouver and Victoria, for a few weeks' holiday.

Mrs. Alex. Patterson and daughter Audrey left last Thursday on a visit to their old home in Alliston, Ont.

Miss Mamie and Dorothy Orde left yesterday to spend a few weeks' holiday in Vancouver and Victoria.

Miss Agnes McElmon, who has been teaching in this district, left last week for her home in Truro, N.S.

Frank Honeysett, assistant agent C.P.R., left on Saturday for Winnipeg, for his vacation. Harold Reiber has been taken on to relieve him.

John Deadrick and John Leigh left last week for the Coast on a holiday trip. They expect to be gone until harvest. They will visit Vancouver, Seattle, Portland and other Coast cities before returning.

Mrs. Roy Clemens and children left Monday evening for Cranbrook, where they will in future make their home. They were accompanied by Miss Lois Clemens, who will visit with Mr. and Mrs. Roy Clemens for a few weeks.

Mr. and Mrs. George Burns and family, and Mr. and Mrs. K. G. Crowe, of Truro, Nova Scotia, accompanied by Mr. and Mrs. Blakely and family of Red Deer, spent the week-end at Sylvan Lake. Mr. and Mrs. Crowe then left for Edmonton and other points north, returning later to Didsbury.

Miss Jean Elliott, who has been matron of the General Hospital for about four years, has resigned. After spending a few weeks' holiday at her home in Stettler, she will take a position in Portland, Ore. The splendid reputation and high standard of our hospital is due in a great measure to Miss Elliott's efficient management and able nursing. Her many friends wish her a pleasant holiday and success in her new position.

Didsbury Exhibitors Secure Many Prizes.

When one takes into consideration that the exhibits at the Calgary fair were drawn not only from every point in Alberta, but also from Eastern Canada and the States, it was no small achievement for our local exhibitors to gain the success they did.

J. V. Berscht, with his Shetlands, was awarded three firsts and two seconds. Dan Dippel brought home two seconds for his mare and colt.

M. Weber and G. Manhead had an exhibit there of pure-bred Holsteins, consisting of a bull, several cows, yearlings and calves, which had to be shown in a class comprising the champion cow of the Royal show, Toronto. Notwithstanding, however, they brought home one first, one second, two thirds, three fifths, and one sixth.

PROVINCIAL NOTES.

PROMINENT DAIRYMEN HERE
For the purpose of studying Alberta's system of cream grading under government supervision, Dr. George McKay, Secretary of the American Association of Creamery Butter Manufacturers, with headquarters at Chicago, and Prof. F. W. Bouska, manufacturing specialist with the Beatrice Creamery Co., of Chicago, who is doing field work for the American Association, visited Edmonton the past week. They were in conference with Dr. Marker, Alberta's Dairy Commissioner, securing data on the Alberta system which has been such a success and has been a big factor in raising the standard of Alberta's export butter.

DEVELOPMENT IN GAS FIELDS
Another large gas well was brought in the past week in the Viking field east of Edmonton, with a production approaching ten million cubic feet daily. The well will be turned in with the others serving the city of Edmonton.

Activities in the gas fields south of Calgary will include the construction shortly of a "scrubbing" plant to eliminate odors from the gas being brought into Calgary, the construction of another ten-inch gas line from the Turner field into Calgary, and the possible introduction of an industrial rate for the use of gas.

NEW LUTHERAN COLLEGE
The corner stone of a new Lutheran College to cost a quarter of a million dollars was laid in Edmonton the past week.

WOOL CLIP IN SOUTH
Southern Alberta's wool clip this season will reach one million pounds, with a total value of \$350,000, it is estimated.

BUFFALO BOY SCOUTS ON HIKE

Two boy scouts from Buffalo, New York, Edward Matthews and Winston Bell, who left that city June 16, reached Edmonton, Alberta, the past week. They have made 10 to 15 miles a day walking, and have also been assisted by autoists along the road.

NEW MINIMUM WAGE ORDER

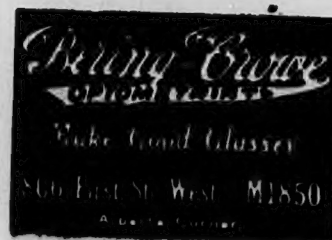

New orders setting forth the minimum wage for various lines of industry have just been made by the Alberta Minimum Wage Board in accordance with the terms of the act as passed by the legislature to provide a minimum wage for women. The various industries covered by the new orders include: Manufacturing, not less than \$12.50 per week; hotels and restaurants, \$16.50 (seven days); laundries and cleaning, \$12.50; personal service occupations, \$14; offices, \$14; shops and stores, \$12.50. Apprentices' wages, according to the orders, are to range from \$6 per week up. Provision is also made for the payment of overtime at not less than the minimum wage.

The new regulations come into effect on August 1st and will apply in the following places: Edmonton, Calgary, Lethbridge, Medicine Hat, Red Deer, Wetaskiwin, Camrose, Drumheller, Coleman and Redcliff.

PREMIER RETURNS FROM EAST

Premier Greenfield returned from Ottawa last week, following several weeks of negotiations with government and railway authorities with respect to the Peace River Railway situation, the natural resources question, etc.

Two definite offers in connection with the solution of the railway situation with respect to the disposition of the E. D. and B. C. line to Peace River, have been received, one from the C. P. R. and the other from the C. N. R. These are now being considered by the government, in conjunction with the Royal Bank, which has assumed the interests of the Union Bank in the railway line. The consent of this bank will be necessary to any deal which is made. Complete details of any plan decided on will be ready for the adjourned session of the legislature when it is called.

SPECIAL PRIZES

All exhibits in special prizes must be entered in the regular form. No entry fee required.

- 1 Special by President, Dan Dippel—Four horse team, hitched, heavy draft, grades or purebred. Conformation and quality 50 p.c., style and manners 20 p.c., driving 20 p.c., turnout 10 p.c. Any two owners may combine teams for this special, with the exception that no two first prize winners can combine, 1st \$10.00
- 2 Special by North End Lumber Co.—Best 1925 foal open to grades and purebreds, 1st \$5.00
- 3 Special by D. Sinclair—Best heavy draft team of Clydes, 1st prize set of heavy wagon doubletrees.
- 4 Special by J. V. Berscht—Best saddle horse on grounds, 1st, suit of Headlight overalls.
- 5 Special by Alberta Pacific Elevator Co., Ltd.—Best stallion on grounds, 1st \$5.00
- 6 Special by Alberta Pacific Elevator Co., Ltd.—Best brood mare on grounds, 1st \$5.00
- 7 Special by N. Bawlf Elevator Co., Ltd.—Best agricultural team, hitched, 1st \$5.00
- 8 Special by United Grain Growers, Ltd.—Best Percheron team hitched, 1st 50 lbs. U. G.G. twine.
- 9 Special by J. W. Phillipson—Best 2 year old filly, purebred, 1st \$5.00
- 10 Special by J. W. Phillipson—Best 2 year old filly, heavy draft, grade, 1st \$5.00
- 11 Special by Royal Bank—Best pail fed dairy calf cared for and fed by boy or girl under 13 years of age, 1st sterling silver medal, also
- 12 Best pail fed dual purpose calf cared for and fed by boy or girl under 13 years of age, 1st Bronze medal.
- 13 Special by Bank of Montreal—Best dairy cow, grade or purebred, 1st sterling silver cup for annual competition, exhibitor winning three times becomes the owner.
- 14 Special by Crystal Dairy, Ltd.—Best 2 year old dairy heifer, any breed, 1st 14 lb. box of butter.
- 15 Special by a Shorthorn breeder—Shorthorn breeders herd consisting of one bull and two heifers under 18 months, 1st \$10.00, 2nd \$5.00, 3rd \$2.00
- 16 Special by Dave Irwin—Best Shorthorn bull, any age, 1st \$5.00
- 17 Special by Roger Barrett—Best dairy bull, any breed, 1st \$3.00
- 18 Special by Canadian Hereford Breeder's Association—Champion Canadian bred Hereford bull, \$5.00. Champion Canadian bred Hereford female, \$5.00
- 19 Special by W. J. McCoy—Best dairy heifer 1 year old, any breed, 1st \$5.00
- 20 Special by Fisher and Edwards—Best 3 year old or over Shorthorn cow, 25lbs. of 550ft. Brantford twine

- 21 Special by Royds and Kirby—Best fat steer, 1st \$5.00
- 22 Special by Kendrick and Good—Best bacon type hog weighing not less than 170 lbs. and not more than 220 lbs, 1st \$5.00, 2nd \$2.50
- 23 Special by Midland Grain Co. Ltd.—Best pen of sheep, male and female and lamb, 1st \$5.00
- 24 Special by Atlas Lumber Co. Ltd.—Best and largest collection of vegetables, prize entry collection to go to donor, 1st \$7.00, 2nd \$3.00
- 25 Special by Cressman Bros.—Best dozen eggs, graded along the Government egg standard. Eggs entered in this competition will be bought after the fair at their store at a premium of 5c per dozen. 1st \$5.00
- 26 Special by Didsbury Pioneer—Best collection of wild flowers open to children under 13 years of age, 1st \$2.50
- 27 Special by H. W. Chambers—Best 10lb. crock of dairy butter, 1st \$5.00
- 28 Special by Russell's bakery—Best collection of canned vegetables 1st \$5.00.

BREAD

- 29 Special by Rosebud Flour Mills—Best two loaves of bread baked with our flour, 1st 98 lb. sack flour, 2nd 49 lb. sack flour, 3rd 24 lb. sack flour, 4th 10 lb. sack wheatlets. Competitors for the above must be prepared to furnish evidence that they have used our flour if called upon.
- 30 Special by Cressman Bros.—Best two loaves of bread baked with Royal Household flour. Exhibitor must show sales slip for at least one 49 lb. sack of Royal Household flour bought from our store. Bachelors not barred in this competition.
- 31 Special by Hawkes Cash Grocery and Hardware Store—Best two loaves of bread baked with Five Roses flour, exhibitor must show sales slip for at least one 49 lb. sack of Five Roses Flour purchased from our store.
- 32 Special by Robin Hood Mills—Best loaf bread baked from Robin Hood flour, 1st 98 lb. sack Robin Hood flour, 2nd 49 lb. sack Robin Hood flour. Competitor must show sale slip for at least one 49 lb. sack purchased from their local agent, J. R. Miller.
- 33 Special by J. E. Huget—Best gingham house dress made from Washwell gingham, purchased from J. E. Huget, sole agent for Washwell gingham, 1st \$5.00
- 34 Special by Didsbury Women's Institute—Best home made quilt, 1st \$3.00, 2nd \$2.00
- 35 Special by Rugby Women's Institute—Best collection of canned meats or poultry not exceeding 4 varieties, 1st \$2.00, 2nd \$1.00
- 36 Special by Mountain View Women's Institute—Best home knitted socks, 1st \$2.00, 2nd \$1.00
- 37 Special by The North West Biscuit Co., Edmonton—Best collection of garden flowers, 1st box biscuits, value \$5.00

The New Closed Car Features

New Chassis

—with longer, stronger frame; new semi-elliptic springs and Alemite lubrication; new radiator design, nickel finish; new improvements on the Chevrolet engine, famous for its power and economy.

New Clutch

—of improved type, single-plate dry disc, requiring no lubrication, fully enclosed—operates smoothly with light pedal pressure.

New Axles

—of the same type as found on the highest-priced cars; extra large, strong differential gears with pressed-steel, banjo-type housing; New Departure ball bearings.

New Bodies

—by Fisher, having beautiful new designs—roomy interiors, handsomely appointed; deep, comfortable upholstery of fine materials, with Ternerstedt hardware.

New Finish

—in lustrous colors of durable Duco; sedan has aqua-marine blue lower panels and hood with upper panels in deep blue; coupe has Ontario Grey lower panels and hood, with upper panels in deep blue; and the coach is finished in a rich dark blue.

New Appointments

—all models have cowl lights and beautifully-designed new instrument board; one-piece VV type windshield with automatic windshield wiper; sedan, coupe and coach have low pressure tires.

Touring \$735 Roadster \$735 Coupe \$995
Coach \$1015 Sedan \$1165

All prices at Factory—Taxes Extra
Low Pressure Tires standard on closed models, optional at slight extra cost on open cars.
Disc Wheels optional at slight extra cost on all models.

A Romance of the Spanish Main CAPTAIN BLOOD RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XXVII.—Continued

And their own they made her in the end, and at cost of nearly half their numbers. Driven to the quarter-deck, the surviving defenders, urged on by the infuriated Rivarol, maintained awhile their desperate resistance. But in the end, Rivarol went down with a bullet in his head, and the French remnant, numbering scarcely a score of whole men, called for quarter.

Even then the labors of Blood's men were not at an end. The Elizabeth and the Medusa were tight-locked, and Hagthorpe's followers were being driven back aboard their own ship for the second time. Prompt measures were demanded. Whilst Pitt and his seamen bore their part with the sails, and Ogle went below with a gun-crew, Blood ordered the grapples to be loosened at once. Lord Willoughby and the Admiral were already aboard the Victrolouse. As they swung off to the rescue of Hagthorpe, Blood, from the quarter-deck of the conquered vessel, looked his last upon the ship that had served him so well. A moment she rocked after her release, then slowly and gradually settled down, the water gurgling and eddying about her topmasts, all that remained visible to mark the spot where she had met her death. As he stood there, above the ghastly shambles in the waist of the Victrolouse, someone spoke behind him. "Captain Blood, never before have I seen the impossible made possible by resource and valor, or victory so gallantly snatched from defeat."

He turned, and presented to Lord Willoughby a formidable front. His head-piece was gone, his breastplate dented, his right sleeve a rag hanging from his shoulder about a naked arm. He was splashed from head to foot with blood, and there was blood from a scalp wound that he had taken mauling his hair and mixing with the grime of powder on his face to render him unrecognizable.

But from that horrible mask two vivid eyes looked out preternaturally bright, and from those eyes two tears had ploughed each a furrow through the filth of his cheeks.

CHAPTER XXVIII.

His Excellency the Governor

It was not until the evening of the following day that van der Kuylen's truant fleet of nine ships came to anchor in the harbor of Port Royal, and its officers, Dutch and English, were made acquainted with their admiral's true opinion of their worth.

Six ships of that fleet were instantly refitted for sea. There were other

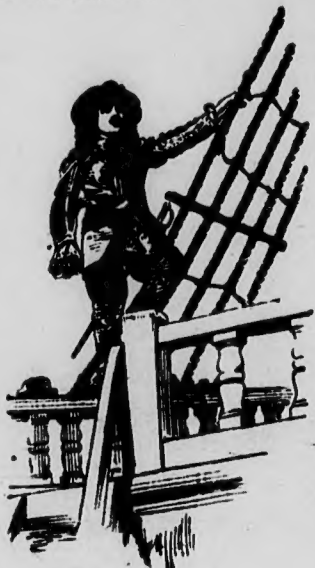

West Indian settlements demanding the visit of inspection of the new Governor-General, and Lord Willoughby was in haste to sail for the Antilles.

"And meanwhile," he complained to his admiral, "I am detained here by the absence of this fool of a Deputy-Governor."

"Aha! But did it not necessary you remain for that. And meantime de Vrench will hat delr eye on Barbadoes, vich is nod vell defended. You half here chust the man you vant. He vill require no insdructions, dis one. He will know how to make Port Royal safe, bedder nor you or me."

"You mean Blood? Egad! I had thought of it! and, rip me, why not?" Blood was sent for. He was a trifle dazzled by the honor propoged to him, when Lord Willoughby made it known. It was so far beyond anything that he had dreamed, and he was assailed by doubts of his capacity to undertake so onerous a charge.

"Damme!" snapped Willoughby, "should I offer it unless I were satisfied of your capacity? If that's your only objection—"

Captain Blood sees the enemy

"It is not, my lord. I had counted upon going home, so I had. I am hungry for the green lanes of England." He sighed. "There will be apple blossoms in the orchards of Somerset."

"Apple blossoms!" His lordship's voice shot up like a rocket, and cracked on the word. "What the devil—? Apple blossoms!" He looked at van der Kuylen. The admiral raised his brows and pursed his heavy lips. His eyes twinkled humorously in his great face.

"So!" he said. "Fery boedical!" My lord wheeled forcibly upon Captain Blood.

"If you want your past forgotten and your future assured, this is your chance. Your duty lies here, at least for as long as the war lasts. When the war's over, you may get back to Somerset and elder or your native Ireland and its potheen, but until then you'll make the best of Jamaica and rum."

Van der Kuylen exploded into laughter. But Blood remained solemn to the point of glumness. His thoughts were on Miss Bishop, who was somewhere here in this very house in which they stood, but whom he had not seen since his arrival. Had she but shown him some compassion—

And then the rasping voice of Willoughby cut in again, upbraiding him for his hesitation, pointing out to him his incredible stupidity in trifling with such a golden opportunity as this. He stiffened and bowed.

"My lord, you are in the right. It shall be as you wish; and very gratefully, let me assure your lordship. I shall know how to earn his majesty's approbation. You may depend upon my loyal services."

Thus it was settled. Blood's commission was made out and sealed in the presence of Mallard, the commandant.

"We sail tomorrow morning," his lordship announced. Blood was startled.

"And Colonel Bishop?" he asked. "He becomes your affair. You are now the Governor. You will deal with him as you think proper on his

return. Hang him on his own yardarm. He deserves it."

"Isn't the task a trifle invidious?" wondered Blood.

"Very well. I'll leave a letter for him. I hope he'll like it."

Captain Blood took up his duties at once. With the sanction of Lord Willoughby he marshalled his buccaneers and surrendered to them one-fifth of the captured treasure, leaving to their choice thereafter either to depart or to enrol themselves in the service of King William.

A score of them elected to remain, and amongst these were Jeremy Pitt, Ogle and Dyke, whose outlawry, like Blood's, had come to an end with the downfall of King James. They were—saying old Wolverstone, who had been left behind at Cartagena—the only survivors of that band of rebels—convict who had left Barbadoes over three years ago in the Cinco Llagas.

On the following morning, whilst van der Kuylen's fleet was making finally ready for sea, Blood sat in the spacious whitewashed room that was the Governor's office, when Major Mallard brought him word that Bishop's homing squadron was in sight.

"I am glad he comes before Lord Willoughby's departure. The orders, Major, are that you place him under arrest the moment he steps ashore."

Peter Blood sat back in his chair and stared at the ceiling, frowning. Came a tap at the door, and an elderly negro slave presented himself. Would his excellency receive Miss Bishop? He sat quite still, conscious that his pulses were drumming in a manner wholly unusual to them. Then quietly he assented.

He rose when she entered, and if he was not as pale as she was, it was because his tan dissembled it. For a moment there was silence between them, as they stood looking each at the other. Then she moved forward, and began at last to speak, haltingly, in an unsteady voice, amazing in one usually so calm and deliberate.

"I . . . I . . . Major Mallard has just told me . . ."

"Major Mallard exceeded his duty," said Blood, and because of the effort he made to steady his voice it sounded harsh and unduly loud. "You alarm yourself without reason, Miss Bishop. Whatever may lie between me and your uncle, you may be sure that I shall not follow the example he has set me. I shall not abuse my position to prosecute a private vengeance. On the contrary, I shall abuse it to protect him. Lord Willoughby's recommendation to me is that I shall treat him without mercy. My own intention is to send him back to his plantation in Barbadoes."

"She came slowly forward now. 'I am glad that you will do that. Glad, above all, for your own sake.' She held out her hand to him."

He considered it critically. Then he bowed over it. I'll not presume to take it in the hand of a thief and a pirate," said he bitterly. (To be continued)

Riders of the Plains

We do not suppose there are enough of the Canadian Mounted Police to cover every foot of territory in the Dominion. And yet the Canadian Mounted is known as one of the finest law-enforcing agencies in the world.—Indianapolis News.

Men don't actually fall because they knock; they knock because they have failed.

OH! MY BACK!

Massage with Minard's and feel the pain disappear.

Your Option

More than half the disease and sickness afflicting civilization and overcrowding our hospitals might easily be prevented if men and women would, on their own account, exercise something approaching the knowledge and skill which they lavish upon their cars and domestic animals. They study and discuss with each other the pros and cons of the minutest detail connected with obtaining maximum efficiency of the machines they ride in, while countless volumes from the pens of eminent authorities are pored over in exhaustive search for the best procurable information regarding correct feeding and care of horses, cattle, poultry, dogs and cats.

With both man and beast "the blood is the life" and the composition of the blood is dependent upon the nature of the food supplied the digestive organs. The body of every living creature contains sixteen elements. Like elements exist in fertile soil and in the tissues of healthy plants and the human body can only be maintained in health by a requisite supply of all these essential elements which, in variety and perfection, are bountifully provided by Nature.

The diseases of civilization have increased to an alarming extent by the refinement of natural foods to the practical extinction of the organic salts essential to the production and maintenance of a good condition of the blood. Man is the only creature known to destroy the health-preserving values of his food.

For example, white flour is produced by the extraction of three-fourths of the mineral salts and colloids from the wheat, including the salts of phosphorus, sulphur, calcium, potassium, iron, chlorine, fluorine, magnesium, manganese, etc. Hence, the author, Alfred W. McCann, justifiably terms white bread "a foodless food."

The boiling of vegetables dissolves most of their priceless mineral salts. All vegetables which require cooking should be cooked by steaming. Cookers or steamers, of various makes, can be bought which allow vegetables to be cooked without loss of salts. Such steamers are economical—saving fuel and space, as several saucepans are fitted one above the other—1 pudding, 2 potatoes, 3 vegetables or roots, 4 meat, poultry or fish.

Excessive consumption of white sugar and all forms of preserved fruits and starchy foods produce such maladies as catarrh, hay-fever, asthma, rheumatism, arthritis, heart disease, etc., the body no longer retaining its normal alkalinity of the blood, the nature of the ensuing disease largely depends on the inherited tendencies of the subject.

Originally endowed with sound constitutions, men and women may, with apparent impunity, defy Nature's laws and requirements regarding their diet for years, but, for such defiance, Nature will sooner or later exact commensurate penalties.

Only in recent years has the subject of correct rational diet occupied civilized public attention, but with the knowledge easily obtainable concerning this vitally important matter, it has now literally become your option to forthwith commence making long due restitution to your body or to look forward to such physical pains and penalties as will be demanded by Nature for your past neglect before your premature death terminates the healthful life which still belongs to you if you wish to retain enjoyment of your most valuable possession. The fact that the uncivilized races, which live naturally, are unacquainted with almost all the fashionable, but nevertheless fatal, diseases of civilization, emphasizes the truth of the statement that the farther we depart from Nature's inviolable laws regarding our food, the quicker we create trouble for ourselves in the form of self-inflicted diseases naturally resulting from our insistence upon refinement and sophisticated cooking. 1639 A.D., George Herbert made a statement which has not yet been contradicted: "Whatsoever was the father of the disease, An ill diet was the mother."

Hoping that mental digestion of these lines will result in greatly improved health and happiness of their readers. Your sincerely,

CHARLES WALTER,
51 Brunswick Avenue, Toronto.

Dogs cannot be landed in Great Britain unless a license has been previously obtained from the board of agriculture in London.

Empire's Finest Baby

Calgary Mother and Baby Awarded First Prize at Wembley

The champion mother and baby in the empire's mother and baby competition at the British Empire exhibition, Wembley, are Mrs. MacDonald, 730 Eighteenth Ave., West, Calgary, Alta., and John Duncan Claude MacDonald. Announcement of Mrs. MacDonald and her child winning the prize was made at Wembley recently.

The first prize in the competition, which has been won by Mrs. MacDonald with her baby, is an endowment policy of £100 and £20 in cash.

RED HOT JULY DAYS
HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MISERABLE AND
ALWAYS IN PAINLydia E. Pinkham's Vegetable
Compound a Dependable
Help for Mothers

Port Greville, Nova Scotia.—"I took your medicine for a terrible pain in my side and for weakness and headaches. I seemed to float all over, too, and my feet and hands were the worst. I am the mother of four children and I am nursing my baby—the first one of four I could nurse. I took Lydia E. Pinkham's Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot praise it too highly for what it has done for me. I took all kinds of medicine, but the Vegetable Compound is the only one that has helped me for any length of time. I recommend it to any one with troubles like mine and you may use my letter for a testimonial."—Mrs. ROBERT McCULLY, Port Greville, Nova Scotia.

Before and after child-birth the mother will find Lydia E. Pinkham's Vegetable Compound a blessing.

Many, many letters are received giving the same sort of experience as is given in this letter. Not only is the mother benefited, but these good results pass on to the child.

No harmful drugs are used in the preparation of this medicine—just roots and herbs—and it can be taken in safety by the nursing mother.

98 out of every 100 women reported benefit from its use in a recent canvass among women users of this medicine. C

Medical Supplies For Deep Sea Fishermen

Yacht Has Been Fitted Out For Trip To Labrador

Bound for Labrador a yacht of 95 tons, only 90 ft. long, named Strathcona II, reached Southampton from Queenston, and later set sail for St. John's, Newfoundland. She carries medical supplies and other necessities to deep-sea fishermen along 600 miles of the coast. Captain A. R. T. Kirby, her commander, who was wounded at Zeebrugge, stated that the yacht had been fitted out for Dr. W. T. Grenfell by the Royal National Mission to Deep-Sea Fishermen. Dr. Grenfell would join the yacht at St. John's as medical chief of the expedition. It is planned to establish medical stations and to attend to the needs of the community and also to obtain information as to navigation in the creeks and to make a survey of the northwest river, where nobody has ever been. The party may be away two years.

Sour Stomach Risings Quickly Relieved

The wonderful comfort and relief you get from even twenty drops of Nerviline will surprise you. Take it in sweetened water; it's not unpleasant. Almost immediately you feel better. Nerviline brings up the gas caused by fermenting food, and at the same time relieves that distressed feeling in the stomach. When colic or cramps strike you at night, when nausea or upset stomach overcome you, then it is that you'll find Nerviline a sure relief. For general use in the family, for emergent ills, always keep Nerviline handy on the shelf. Get a 35c. bottle to-day.

Seek To Reduce Losses

Livestock Loss Prevention Association Formed in Ohio

With the hope of saving some of the millions of dollars of loss, sustained from injury to stock in transit, the farmers, feeders and shippers of livestock in Ohio have formed a Livestock Loss Prevention Association. At least 50 per cent. of such losses are preventable, according to officials of the new organization, and the responsibility is about evenly divided between producers and the railways. Bruising from rough handling, both in loading and in the cars, is noted as a serious item.

Excellent for Croupy Children.—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm, giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Delicate Compliment

Milliner.—To wear a stylish hat with grace you must have a head like this wooden model. That's the reason madam looks so charming in the one she is now trying on.

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Earl Haig in Canada

Ex-Soldiers From Many Parts of Empire Greet Field Marshal

At the biennial conference of the British Empire Service League held in Ottawa recently, an organization of ex-soldiers who fought in the Great War, delegates were present from a number of countries, namely, Great Britain, the Irish Free State, Northern Ireland, Australia, New Zealand, India, South Africa, Burma, Rhodesia, Malaya, and Newfoundland. The conference was presided over by Field Marshal Earl Haig, who was commander-in-chief of the British armies for the greater part of the war. The American Legion was represented at the conference by Commander Drain, head of the legion.

Armistice Ended

Slimkins and his young wife had just completed their first quarrel. "I wish I were dead," she sobbed. "I wish I was, too," he blurted out. "Then I don't wish I was," and the war continued.

WRIGLEY'S

SUNDAY SCHOOL LESSON

JULY 19

THE GOSPEL IN LYSTRA

Golden Text: Blessed are they that have been persecuted for righteousness' sake: for theirs is the kingdom of heaven. Matthew 5:10.

Lesson: Acts 14:1-28.

Devotional Reading: Psalm 46:1-7.

The Text Explained and Illumined

I. A cripple made to walk, verses 8-10.—There being no synagogue at Lystra, Paul began his preaching in the open air. Near him was a man crippled from birth; probably like the cripple whom Peter restored, he sat begging in his accustomed place. Paul noticed the cripple's eager attention in his words, and believing that the man had faith to be made whole, he said to him, "Stand upright on thy feet." Another manuscript (the Codex Bezae) reads, "In the name of Jesus Christ I bid thee rise and walk." This was just what the man had never been able to do. Compare Christ's words to the man with the palsied arm—"Stretch forth thy hand"; the impossible happened in both cases; the cripple leaped up and walked.

II. The people seek to worship Paul and Barnabas, verses 11-13.—Seeing the cripple walking, the people were so amazed that they cried out in the speech of their province (Lycania), "The gods are come down to us in the likeness of men." Egyptians and Greeks believed that the gods often assumed human bodies and visited the earth to reward the good and punish the evil. Homer, Vergil and Ovid record many such visits. Cowper translates a passage from Homer thus:—

For, in similitude of strangers, oft
The gods, who can with ease all
shapes assume,
Repair to populous cities, where they
mark
The outrageous, and the righteous
deeds of men.

A special legend of the coming of Jupiter and Mercury to this very region (see the second topic) made it natural for the people to call one of the apostles Jupiter and the other Mercury.

Education and Ability

Education is Limited by the Material On Which it Has to Work

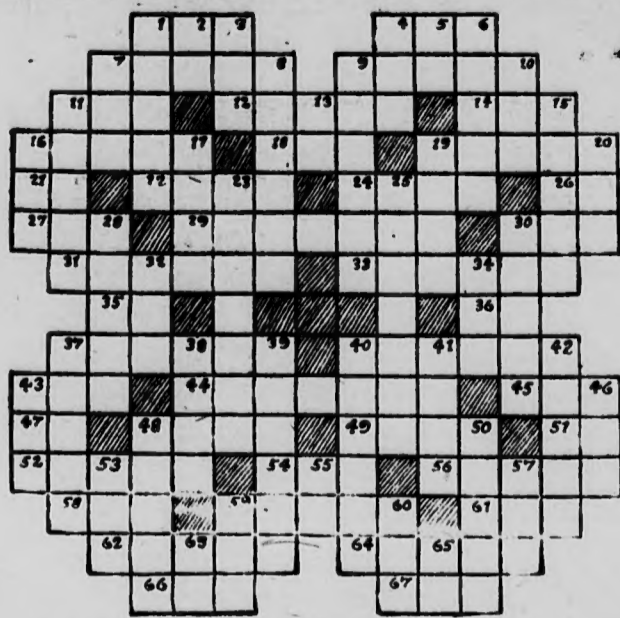

Education does not produce mind. But it is the mind on which education works—a truth which is often forgotten by those who have set up the little tin god of efficiency and utilitarian dexterity as the educational idea. No amount of education will stuff knowledge and ideas into a mind that is incapable of receiving them. Education works no miracles or feats of magic; it is strictly limited and conditioned by the material it has to work on.—Cape Argus.

- 63—Three toed sloth.
- 65—Objective case of.

When North and South Meet

Prominent Irishmen Attend Dinner Given in London

Prominent men from both north and south Ireland attended a dinner recently at the Irish Club in London, the affair developing into one of cordiality and great harmony.

Sir James Craig, the Ulster premier, was absent, owing to the death of his brother, and William T. Cosgrave, president of the Free State executive council, was unable to attend, but the guests included Timothy Healy, governor-general of the Free State, and the Duke of York.

The latter, eulogizing T. P. O'Connor, veteran Nationalist member of the British Parliament, raised a laugh by saying that the only complaint heard about him was that he was willing to do everything for Ireland except live there.

Governor Healy lauded the part King George had taken in the Irish settlement, saying: "The turmoil and stress which used to prevail in South Ireland so wrung His Majesty's heart that but for him no approach to a truce or settlement would have been possible."

Manitoba Paper Mill

Big Plant to be Erected on the Winnipeg River

A 200-ton paper mill, which will cost \$1,500,000, and give employment to 500 men annually, and to 1,200 for seven months of the year, during the lumbering season, will be constructed at Fort Alexander, Man., by the Spanish River Pulp and Paper Company, in conjunction with the J. D. McArthur interests, of Winnipeg. It is announced.

Fort Alexander is at the mouth of the Winnipeg River, a short distance from Victoria Beach, on the Canadian National Railways, Lake Winnipeg branch, and is about 75 miles north of Winnipeg. Construction work on the mill will start immediately.

Architectural Effect

Old Farmer Gulletson, of Raspberry Acres, having sold the south 40, took his bride of 50 years before on a trip to Europe.

"Look, S'manthy!" he explained, as they gazed upon the leaning tower of Pisa, "the fella musta been drunk when he built that sht."—Life.

Alberta Man Has Invented Machine For Extracting Oil

The use of Alberta tar sands for street paving will now be possible on a large scale as a result of a machine invented by Thos. Draper, president of the McMurray Asphaltum and Oil Limited, Waterways, Alta. The machine, according to Mr. Draper, has stood up to all that was expected of it in tests, made at Petrolia with tar sands brought from Waterways for the purpose.

The machine is built to serve the double purpose of being used for street paving use and also for the extraction of the oils from the sands.

Canadian Ambassador to U.S.

Lieut.-Col. L. C. Amery, secretary of state for the dominions, replying in the British House of Commons to a request for a statement with regard to the appointment of a Canadian ambassador to the United States, said he had seen press reports about the matter but that His Majesty's Government had not yet received any official communication from the Canadian Government on the subject.

ADSHEAD'S GARAGE

EVANGELICAL NOTES.

There will be no service in the Evangelical Church here next Sunday evening on account of the Mennonite camp meeting. Sunday evening may be the closing of the camp meetings and therefore many of the Evangelical people will want to attend there.

Mr. Carson H. Mateer of Toronto general secretary of the Christian Endeavour Union, is at present making a tour through the prairie provinces in the interests of Christian Endeavour, young people's work. He will be in Didsbury on Tuesday evening, July 21st, and will give an address in the Evangelical church here. Special invitation is extended to all young people to attend this meeting.

Mr. and Mrs. (Rev.) W. Miller have returned from their honeymoon and are again leaving Didsbury to-day (Thursday) by car for their new home and appointment in the ministry at Pennant, Sask.

CAMP MEETING A BIG SUCCESS.

The annual camp meeting of the Mennonite church, now in session in Didsbury, bids fair to be one of the most successful held here. Both in point of number of those in attendance and in the success which has greeted the efforts of the organizers, the expectations and hopes of the church officials have been fully realised. The services are held every day and will be continued until next Sunday.

AROUND THE TOWN

Mrs. Maze of Edmonton is visiting with Mrs. (Dr.) Clarke.

Ball game between Innisfail and Didsbury to-morrow (Friday).

Ed. Perschbacher, formerly employed in W. G. Leisemer's tin shop, stopped off here Thursday last.

Mrs. Wilson Hyndman and little daughter Marjorie have arrived from Calgary and are visiting with Mrs. C. Franklin.

Mr. and Mrs. Liphardt have moved into the house formerly occupied by Mr. Siddons, next to Dr. Clark.

An experienced operator from Calgary has taken over Mrs. Gillmore's beauty parlor, commencing to-morrow (Friday).

Mr. and Mrs. J. A. Vongunton of Winnipeg stopped off last week whilst on their way to Los Angeles, to visit Mr. and Mrs. Liphardt.

At the Town Council meeting held on Monday evening last, the tax rate for the year was set at 75 mills, comprising school 40, debentures 10, municipal 25.

Messrs Nowak and McCloy have each purchased during the past week a Chevrolet apiece from the Adshead garage, another car being also bought by C. Young.

The Westerdale Sunday school will hold their annual picnic at the recreation grounds on Wednesday, July 22. Picnic, dinner, baseball, volley ball, and children's races. Everybody welcome.

Goldwin E. Liesemer has been appointed principal of the Didsbury high school, with Miss Isabel Beveridge as his assistant. The probabilities are that the staff of the public school will be the same as last term.

In his efforts to extend the race track at the exhibition grounds, W. Hardy has received the co-operation of a large number of farmers, all of whom have come forward splendidly and done a really valuable service. The brush has been cut and burnt and considerable grading and levelling done and the result should be manifest on fair day when it is put to the test by some of our local race horses.

A surprise party, taking the form of a shower, on Mr. and Mrs. Dave McEwen, was held on Monday night at Allen Hunsperger's place, south-west of town. About two hundred people were present. The evening proved a very enjoyable one, and with a program of songs, recitations, and instrumental music, there was not a dull moment throughout. The lawn was requisitioned for various games, and later on delicious lemonade, ice-cream, etc., was served abundantly.

A walk through our residential section just now is made very enjoyable by the sheltering foliage of the trees and the well-kept gardens. To the credit of our residents be it said there are but few residences that do not show full evidence of the love of the owner for the outdoors. With many of them the carefully cultivated vegetables are as delightful to the eye as the well chosen flower-bed, and one does not even risk contradiction by stating that very few towns here in the west can show such a pleasing spectacle as that prepared by our local amateurs.

Piano tuning.—Don't hope for the best. Get it. Mr. Gavin Spence will be here about July 22-25 with W. H. Norton. Leave orders at this office.
